| <input checked="" type="checkbox"/> Schools or universities | <input type="checkbox"/> Media |
| <input type="checkbox"/> Health care providers | <input type="checkbox"/> Local public health departments |
| <input type="checkbox"/> State public health departments | <input type="checkbox"/> Policymakers |
| <input type="checkbox"/> Hospitals, clinics or managed care organizations | <input type="checkbox"/> Other: |

Background on the intervention:

The Hutchinson Smoking Prevention Project includes a total of 56 intervention sessions focusing on the social influences approach recommended by the Centers for Disease Control and Prevention. The sessions occur during third through tenth grade.

Findings from the systematic reviews:

Systematic reviews provided sufficient evidence for ineffectiveness. See the link below for more information.
